

ANCHOR INSULATION

“America’s Green Insulator”

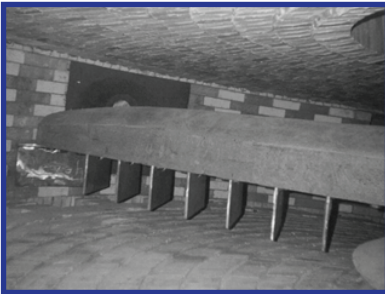

www.anchorinsulation.com

Since 1980

• REFRACTORY DIVISION • REFRACTORY MAINTENANCE, REPAIR & RELINES

Anchor's refractory crews service the states of Rhode Island (RI), Massachusetts (MA), and Connecticut (CT) and have years of experience providing refractory solutions for various boilers, furnaces, ventilation and combustion systems. From small, fast repairs to larger detailed projects, our repeat customers at industrial plants, public and private institutions know our insistence on quality materials, craftsmanship, safety and value will reduce their maintenance costs, conserve energy and lengthen equipment life.
